## Odds and Ends of Gossip.

### POET TO POET.

Below we publish some verses that recently appeared in the Louisville Times. The first entitled "Who cares," is from the pen of Col. Will S. Hays, while the other, which is a response to the despairing cry expressed by Col. Hays, was written by Dr. W. W. Ray, of this place.

**WHO CARES?**

(Written For the Times.)

When I am sick and sad at heart,
Who cares?
And all my joys of life depart,
Who cares?
When sorrow makes me bow my head
I wish for rest in Death's cold bed—
How soon I'd be forgotten—dead—
Who cares?

I feel like I was all alone—
Who cares?
With all my hopes forever flown—
Who cares?
O, how much gladder I would be
If I the end of life could see,
Know when the grave would swallow me—
Who cares?

No loving lips, no gentle voice—
Who cares?
To bid me live, hope or rejoice—
Who cares?
No one to let true friendship dwell
Within the heart, or love me well,
Or care, were I in heaven or hell—
Who cares?

When lips like mine refuse to speak,
Who cares?
And teardrops trickle down my cheek,
Who cares?
And if I pray, for my soul's sake,
No comfort get, no pleasure take,
Though my poor heart should bleed and break—
Who cares?

I'll lift mine eyes to heaven above—
God cares.
No pities me—for me has love—
He cares.
His mercy and His love I'll crave;
He will forgive, my soul He'll save,
I need not fear Death, nor the grave—
God cares.

WILL S. HAYS.

**THE ANSWER.**

Will Hays, accept a brother's cheer,
I care.
Believe me honest and sincere,
I care.
Think not I deal in idle praise,
I'd rather be one Will S. Hays
Than forty Crittendens or Clays,
I care.
Will Hays, thy name and fame will shine
As long as music is divine.

Yes, Will, accept a brother's cheer,
I care.
My friend and brother ever dear,
I care.
I care, yet care I not alone,
Thou art beloved by every one,
From north to south, from sun to sun,
All care.

Sweet music is a sacred thing,
We care.
And blest is he who makes us sing—
We care.
Thy songs are welcome everywhere,
For music smooths the brow of care,
Till not a furrow lingers there,
We care.

Will Hays, Kentucky's dearest son,
She cares.
And since thy genius and thy worth
Have made thee famed, Old Mother Earth,
Herself, is proud to claim thy birth,
She cares.

And when the final call shall come
We'll care.
When summoned to thy heavenly home,
We'll care.
We know the time draws nigh and nigher
When thou'lt be called to lead the choir
In realms to which we all aspire,
We'll care.
Amen, thy name and fame will shine—
As long as music is divine.

W. W. RAY.

PROSPEROUS YEAR—The occupation of the pessimist and the "hard times" howler is just now at a low ebb of action. The spirit of optimism is abroad in the land and pervades the commercial atmosphere in almost every line of business. The trade journals all speak encouragingly of the trade outlook for the coming year and the record for the year just gone speaks for itself. High prices, which mean good times, notwithstanding some pessimistic arguments to the contrary, prevail in almost all commodities. The advantage of advance in values is that everything has responded to the rise. Farm products and wages go up with the advance in the various articles of manufacture. The year promises to be a particularly good one for the farmer and stock raiser, owing to a number of favorable circumstances combined. The farm product that has not responded to the general advance is considered by those who are observant about such matters to be a good thing to hold. This is particularly true of tobacco and the report of a good authority on the tobacco says that there is a general cheerful feeling among dealers and higher prices are predicted.

MARRIED AT HARRODSBURG.—The Harrodsburg Democrat of last week contained the following notice of the marriage to a Harrodsburg man of one of Washington county's fairest daughters. It says: "Mr. Walter Forsythe, son of Mr. John L. Forsythe, was married Wednesday afternoon, at 3:45 o'clock, in Burgin, to Miss Mary Noe, of Springfield. The marriage took place at the home of the bride's sister, Mrs. John Taylor, the ceremony being performed by Mr. Taylor. Mr. Forsythe has been serving as deputy sheriff for some time and is an efficient officer. The bride is one of the handsomest young ladies of Washington county, and until recently a student at Beaumont College. Immediately after the ceremony the young couple left for a bridal trip of two weeks in Washington City. They will make their future home here. The Democrat extends congratulations.

THOMPSON—One of the oldest and perhaps the most active old ladies in Washington county is Mrs. Mary Thompson, whose home in Springfield. Aunt Mary although 88 years old is strong and active and attends to her household duties and does needle work with an amount of energy not often displayed by one of her years. During Christmas week there was a family reunion at the Thompson home and Aunt Mary was the hostess of the occasion. She not only planned the dinner which was a model of culinary skill but she personally attended to the minutest detail of the cooking. Aunt Mary, takes a great interest in the welfare of her children and other relatives and friends and keeps well up with the times. Her late husband Mitchel Thompson lived to the ripe old age of 90 years.

ST. CATHERINE—The Sisters of St. Catherine are having rebuilt and restored to its original form the old chapel at St. Catherine which was erected 87 years ago The old structure had about fallen into decay but some of the old material is yet good and is being used in the new one. As much of the original design will be carried out as possible and the new structure will be preserved as a true representative of the first chapel where the good sisters of St. Catherine of Sienna started in the work that has been blessed and that was the foundation of the prosperous establishment that stands among the first of its kind in this country today.

## FENWICK.

From Our Special Correspondent.

The recent cold weather has made a fine ice harvest, and houses have been filled with ice from seven to nine inches in thickness.

Miss Nellie Nunan who has been dangerously ill from arterian hemorages from the lungs is said to be improving and hopes are entertained for recovery.

Mr. and Mrs. C. R. Harmon, of Springfield, were visiting the family of Mr. Sam Settles in the village on Sunday last.

Mr. W. F. Logsdon, who has been confined to his room from sickness for the past ten days is improving very slowly. Mr. Logsdon is an estimable citizen and has the sympathy of the community.

Mr. Cosby Bogley who is clerking for the firm of Purdom & Co., Pleasant Run was at home Sunday last and reports business good and times prosperous in his vicinity.

Messrs. Fenwick & Smith sold a nice lot of fat hogs on Tuesday last to J. B. Peter & Co., at $3.70 per hundred.

J. R. Blanford sold to F. F. Fenwick one buggy and harness for $65 on Friday last.

Tobacco is being discussed in all its different varieties as the time for sowing plant beds is near at hand. The planters of most experience and success claim that early plants and settings in last of April and first weeks of May have proven most reliable in our latitude. While the crops from later plants have more weight, the chances for a regular stand is very uncertain, and dry, hot weather prevailing in the several years past, renders the crop of late setters inferior, as well as much more subject to the tobacco worm. As the supply of fresh new land for cultivation in the "weed" is coming to be limited, on some farms experiments with the darker varieties on old sod lands is being made, and it is claimed that in a few years "White Burley" will be supplanted by the "Black tobacco." While the south and west portions of the county is said to contain the most fertile soil, it fails to compete with the broken lands of the north in producing the famous white burley.

The stimulation of good prices bids for a large acreage for the ensuing year than ever before and the vital matter of early, thrifty plants is occupying the minds of the tobacco men, and more care and attention in the preparation of beds will be given than common, for they reverse the "old saw" and "say the early birds wont catch the worm" and will perhaps avoid the drouth.

L. A. Greer, Berry Ferry, Ky., writes: Dr. M. A. Simmons Liver Medicine arouses the liver to action like calomel, without nauseating or debilitating. It is a strengthening tonic. Clears the complexion. I think it stronger and superior to Zeilen's Regulator and Black Draught.

**AUGUST FLOWER.**

"It is a surprising fact," says Prof. Houton, "that in my travels in all parts of the world for the last ten years I have met more people having used Green's August Flower than any other remedy for dyspepsia, deranged liver and stomach and for constipation. I find for tourists and salesmen, or for persons filling office positions, where headaches and general bad feelings from irregular habits exist, that Green's August Flower is a grand remedy. It does not injure the system by frequent use, and is excellent for sour stomachs and indigestion." Sample bottle free at Haydon & Robertson's. Sold by dealers in all civilized countries.

In sluggish liver, Herbine, by its beneficial action upon the biliary tracts, renders the bile more fluid, and brings the liver into a sound, healthy condition, thereby banishing the cause of drowsiness, lethargy, and the general feeling of apathy which arise from disorders of the liver. Price 50 cts. Haydon & Robertson.

The modern and most effective cure for constipation and all liver troubles—the famous little pills known as DeWitt's Little Early Risers.

## PLEASANT GROVE.

From Our Regular Correspondent.

Mike Fitzgerald has moved to the Fredericksburg neighborhood where he will run the farm of Mrs. Sam Grundy.

For the past few days the farmers have been busily engaged in storing away ice.

Owing to bad weather work on the church is progressing slowly and it is feared it will not be completed before spring.

Divie Hays, of Bloomfield, spent Christmas at B. L. Litsey's.

Jos Edd and Nat Thompson were at Harrodsburg the last of the week.

H. N. Ware has bought the John Thompson farm two miles this side of Lebanon for $4000, to which he will move the first of next month.

Mr. Richard Baker has rented Mr. Ware's farm for this year.

Tom Frank, of Louisville, returned after a week's visit to relatives here.

Miss Elma Leachman spent last week with her uncle, Jim Duncan, of Bloomfield.

Robert Hines will move shortly to the Maple Hill neighborhood.

Uncle Johnnie Hall, an old and respected citizen, died Sunday at the home of his son, Frank Hall. His remains were interred in the Bethlehem cemetery.

Robert Thompson moved Tuesday to the farm of Miss Emma Wilson which he has rented for the following year.

The spring school will open the middle of this month under Miss Jennie Redding

Jim Willett has rented the farm of J. W. Thompson to which he will shortly move.

John Unsel will move on the farm near Lebanon shortly.

Edd and Will Duncan have rented the farm of Mrs. Nannie Leachman for the following year.

The sale of Mrs. Mollie Noe's household effects, which was advertised for Wednesday evening, was postponed on account of bad weather.

During the past week the young people of this neighborhood have been having a jolly time beginning with a party at Mr. Thompson's on Wednesday night, on Thursday a dance at Mr. Sam Vaharsdall's and a candy pulling at Will Thompson.

It has been demonstrated repeatedly every state in the Union and in many foreign countries that Chamberlain's Cough Remedy is a certain preventive and cure for croup. It has become the universal remedy for that disease. M. V. Fisher, of Liberty, W. Va., says he reports what has been said around the globe when he writes: "I have used Chamberlain's Cough Remedy in my family for several years and always with perfect success. We believe that it is not only the best cough remedy, but that it is a sure cure for croup. It has saved the lives of our children a number of times." This remedy is for sale by Haydon & Robertson.

## Wild Animal.

The people of the Barren River church neighborhood, in Warren county, are greatly excited over the appearance in that section of an unknown sort of wild and ferocious animal. Many of the best known farmers have either seen or heard the strange beast, and say nothing like it has even been seen in that community. It cries like a human being in distress, and gives forth such a piteous scream as to make the stoutest heart quail with fear. The farmers say that it is holy terror to pigs, lambs and calves. Numerous efforts have been made to capture the beast, but they have thus far proved futile. The dogs have attacked it, but in a few moments have invariably come back beaten and bleeding. The negroes in that neighborhood cannot be induced to come outside the house after dark under any circumstances.—Glasgow Times.

If you are restless and cannot sleep at night, a dose of Dr. Bell's Pine-Tar-Honey will give you natural rest and refreshing sleep. It checks a cough at once and cures a cold in one night. It heals the throat, chest and lungs, cures la grippe permanently, does not stupify, is harmless. Children love it. Old people like it. Good druggists sell it.

Lewis Dennis, Salem, Ind., says, "Kodol Dyspepsia Cure did me more good than anything I ever took." It digests what you eat and cannot help but cure dyspepsia and stomach troubles.

## Death From a Gun.

A sad accident occurred near McAfee last Thursday morning at seven o'clock, Charles Yocum who lives on the farm of Mr. Ed McAfee, borrowed Mr. McAfee's shotgun to go rabbit hunting. While loading the gun at his residence, it was accidentally discharged, the contents striking his wife in the abdomen. She lived only three hours. A physician was summoned, but could render no assistance. An inquest was held Friday morning by Coroner R. B. Gibbs and the jury rendered a verdict of accidental killing. She was thirty-two years of age, and had been married three times. Three children survive her. The funeral was preached Friday morning at 11 o'clock followed by interment at Hopewell. She was a member of the Baptist church. The husband is said to be almost distracted over the sad occurrence. He is a son of Mr. Burton Yocum and thirty years of age.—Harrodsburg Democrat.

Sweet music appeals to the heart and soul and lightens many of life's burdens. If you have ever heard the sweet-toned Steger Piano you will appreciate this. ## Tobacco Market

The Louisville Weed says: "The resumption of auction sales after the holiday recess, showed that the Burley market was in its normal condition—strong and active along the entire line. The offerings on Tuesday, the opening day, were on a rather limited scale, but were sufficient to demonstrate the fact that the market retained its old time firmness. Common and medium grades, as usual, were plentiful, but the average quality of the offerings for the past week was decidedly low. Shippers, as a rule, do not push their finer grades forward at this early date, and since the market at present seems more inclined to concentrate its energies on the medium styles than on the better grades, shippers can afford to wait until the demand for the fine grades becomes more active. It is rumored on the Breaks that the trust will shortly discontinue buying in the country, and confine its purchases to the open market. This decision, if authentic, will naturally have a marked effect on this market, and will doubtless accentuate the already strong already strong competition on the auction floor. The most striking feature of the trade at present is the prevailing optimism which pervades the entire market. All look forward to a prosperous year, and the pessimist is decidedly at a discount. The tobacco trade but reflects the general air of optimism prevailing throughout the entire land. It is to be hoped that this optimism will encounter no snag in its path.

"I was nearly dead with dyspepsia, tried doctors, visited mineral springs, and grew worse. I used Kodol Dyspepsia Cure. That cured me." It digests what you eat. Cures indigestion, sour stomach, heartburn and all forms of dyspepsia. Waters & Browne.

## Interesting Character

Deputy United States Marshal LaRue has an aunt in Larue county who is one of the most interesting characters in the State. She is Miss Sallie Castleman, and lives in a block house built by her father three miles Hodgenville nearly a century ago. She is ninety-two years of age, and although the old house which overlooks the battleground of many a blood brush with Indians in the years that won for Kentucky the name of "Dark and Bloody Ground," has in recent years been weatherboarded, it is the same substantial structure made of yew logs, and stanch enough for another century of domicile.

Mrs. Castleman is a daughter of Jacob LaRue, the Deputy Marshal's grandfather, and despite her four score and ten years, is agile and retains to a remarkable degree all her faculties, which are as alert as those of many much younger people.

Her father settled near where Hodgenville now stands, after coming from Virginia. He formerly owned 3,000 acres of land, beginning at where Fourth street Louisville, now touches the Ohio river and extending up nearly a mile, embracing all the territory now occupied by some of Louisville's most valuable buildings. He sold out for 12½ cents an acre what is now worth hundreds of dollars an acre, but Mr. La Rue lost nothing after all from his investment, as the property around Hodgenville is still worth a dollar an acre.

Mrs. Castleman remembers much about Nancy Hanks and the entire family, and Abraham Lincoln, who was born not far from her present home, and knew them all personally.—Paducah Sun.

## New Election Bill.

Representative Orr, of Owen county, will spring a new election bill by way of amendment to the Goebel election law. Instead of three Democratic State Election Commissioners, elective by the Legislature, Orr's bill provides for two to be appointed by the Governor, one a Democrat and the other a Republican. It is imposed upon the Governor that he shall appoint as the Democratic State Commissioner one from a list submitted to him by the State Central Democratic Committee, and the same course applies as to the Republican Commissioner. County Election Boards are to be composed of two members, one a Democrat and one a Republican, chosen by the non partisan State Board from recommendations by the county Democratic and Republican committees. In every precinct of the State the county Democratic Commissioners appoint two election officers and the Republican members appoint a Republican election officers.

THURSDAY, JANUARY 11, 1900.

EX GOVERNOR W. O. Bradley was nominated by the Republicans as their candidate for United States Senator to oppose J. C. S. Blackburn and the contest was opened on Monday. On Tuesday voting in separate session the General Assembly cast a majority of its votes for the Hon. J. C. S. Blackburn for United States Senator. Yesterday at noon he was formally elected at a joint session. On Tuesday and Wednesday of next week the same action will be taken as a legal precaution to cover any question as to the correct date of the election, Mr. Blackburn received 57 votes in the House and 22 in the Senate. Mr. Bradley received 42 in the House, and 12 in the Senate. All the Republicans were present and voted. Three Democrats were unavoidably absent, and Senator Hays and Alexander remained away, but they had announced their intention of not voting for Blackburn.

THE Kentucky law-makers are getting in their work early in the session and the member with his little bill is on hand by a large majority. Eighty-six bills were introduced Tuesday in the Senate and House. Among them were several bills on the order of the Union School Book measure and the Roberts Local Option Bill; several anti-trust bills; an anti-lobbying bill; an anti-cigarette bill; a new capitol bill; a bill for an additional circuit judge in Jefferson county; a bill for a new Judicial district, composed of the counties of Leslie, Clay and Knox; a bill to submit a constitutional amendment abolishing the secret ballot, and two bills for a poll tax qualification on voters.

THE British and Boers are supposed to be still fighting although definite information is hard to obtain. No news of what has transpired in South Africa since Sunday has been made public by the London War Office and the dispatches of the war correspondents have been suppressed. It is known that there was no bombardment of Ladysmith Sunday, and it is presumed White still holds out there. Gen. Buller remained inactive Sunday, an indication that he is powerless to go to the rescue of the beleaguered garrison. Beyond this absolutely nothing is known publicly in London.

AND still the giving of money by hero worshipers goes on. A living cup made from melted dimes contributed by over 70,000 American citizens, a majority of whom were children, was presented to Admiral Dewey yesterday.

THE Republicans talk of appealing to the United States courts for an injunction in case [illegible] attempt to unseat [illegible] and lively [illegible] before the [illegible] Cam- [illegible] camp- [illegible] time [illegible] ber- [illegible] on [illegible] rn. Not much stock was on the market and bid log was rather slow. Auctioneer Arnold reports the following sales: Four calves sold at $15 per head; 1 cow, dry $29; 1 small pony $12; 1 small mule, $10; 1 sorrel horse, $35.75; 1 old buggy and harness $12 50.

A Deadly Danger.

Many a man who finds the seeds of disease planted in his blood dreams away his time in fancied security with a deadly danger coiled upon him ready to strike its fangs into his very vitals.

"Should a man think he has consumption," you ask, "just because his appetite is poor and he is losing flesh and he has a little cough and a general feeling of weakness and incapacity?"

No; that doesn't necessarily mean consumption, but it means that the system is slowly undermined; it is losing force and vitality; it is being tainted with bilious poisons that the liver hasn't power to throw off and any day that which is now only a probability may suddenly develop into a certainty.

"Any accidental hemorrhage of the lungs, she had no hemorrhages, and the people all around her would say she died 'from self neglect,'" said Mr. W. A. Sanders, of Hern, Mason Co., W. Va., in a very instructive letter written to Dr. R. V. Pierce of Buffalo, N. Y. "But she began to take Dr. Pierce's Golden Medical Discovery and she soon began to gain strength and flesh. After taking six bottles she was entirely well. Should you think this will do you any good to publish, use it, and if any one disputes the merits of this almost omnipotent medicine they may have my self-addressed, envelope and stamp, and I will answer the same as written in this letter."

But the time to use this medicine is now while the little weaknesses are slowly breaking you down. Awaken in time and throw off the deadly danger before it settles you in a vital spot. The glorious "Discovery" will give you appetite and digestive power, pure blood and solid substantial strength.

Write to Dr. Pierce about your condition. He will send you good, professional advice, free of charge.

He conferred with Populist and Silver Republican leaders last week in reference to fusion, and as Mr. Bryan's supremacy in his own state rests upon fusion, he will insist upon the continued cooperation of the Democrats, Populists and Silver Republicans. Mr. Bryan spoke in Lincoln and Chicago last week. His speech at the Jackson Day dinner in Omaha last night is regarded as his formal opening of the campaign, and as indicating the character of platform upon which he desires to make the fight. Bimetallism, opposition to the private control of public finances, anti-imperialism and opposition to trusts it is the battle cry. Mr. Bryan is scheduled to appear in Minneapolis, St. Lou's, Frankfort, Washington and New York before the end of the month, concluding his Eastern tour with a visit to New England. The country will have ample opportunity to learn his views on all the questions of the day, and by the time of the National Committee meeting in Washington, in February, we may expect to see the lines drawn for the fight inside the Democratic party.—Dispatch.

To cure a cold, stop coughing, as it irritates the lungs, and doesn't give them any chance to heal. Foley's Honey and Tar cures without causing a strain in throwing off the phlegm like common cough expectorants. Haydon & Robertson.

Save doctors' bills by giving Foley's Honey and Tar to infants and children in time to prevent pneumonia or croup, which are fatal to so many thousands of babies. Haydon & Robertson.

### NELSON NOTES.

From the Record.

One of the largest bulls we have seen lately passed through town one day last week. It was a Polled Durham and weighed 1,930 pounds and was sold to Pash and Bealmear at 3½ by Mr. Greenwell, of Balltown neighborhood.

An unusual occurrence last Sunday evening was the baptising of Dave Hall at his home. On account of the young man being afflicted with that dread disease consumption, the baptising was performed in a large bath tub by Rev. I. P. Trotter, pastor of the Baptist church and was witnessed by a number of people.

One evening last week we had the pleasure of viewing the large herd of cattle, consisting of 282 head, of Arnold & Smith. These cattle are on slop at the Tom Moore distillery and are the finest ever fed at this place. They are rapidly gaining flesh under the management of Mr. Girby Smith, the "old reliable" feeder and we will predict that they will be the heaviest cattle ever left Nelson county.

The marriage of Mr. John C. Marks and Miss Francis L. Jury, of the Woodlawn neighborhood, will take place at Fredericktown tomorrow. The groom is a promising young farmer, while the bride is quite a pretty young lady and is a native of Germany. We wish them a most prosperous married life.

County Court was in session yesterday and Judge Durham disposed of a good deal of business. The day being a pretty one the farmers were in town in full force and consequently the merchants did a good business. Not much stock was on the market and bid log was rather slow. Auctioneer Arnold reports the following sales: Four calves sold at $15 per head; 1 cow, dry $29; 1 small pony $12; 1 small mule, $10; 1 sorrel horse, $35.75; 1 old buggy and harness $12 50.

Wit Hamilton, colored, was tried before Judge Daugherty yesterday evening on the charge of pointing a pistol at Mr. J. B. Howles and wife on the 30th day of December and was fined $50 and fifty days in jail. Wit is a well known character of this place having figured quite freely in the court. He recently returned from the pen at Frankfort, where he served a year for malicious cutting.

EPILEPSY.

When Epilepsy is the result of some injury to the brain or spinal cord it may be safely asserted that the victim of the disease will forever remain a victim until death relieves his sufferings, unless the case be one that may be relieved by a surgical operation. But nine cases out of ten of Epilepsy are due to the results of a torpid liver. The Red Circle Pills always relieve torpid liver. Nature will do the rest.

### Republican Caucus.

A special to the Times from Frankfort says: The Republican joint caucus last night nominated ex-Gov. William O. Bradley as the Republican candidate for senator by acclamation. Congressman Boreing, the only other aspirant who had sought this honor from the minority, having instructed his friends not to present his name. The occasion was rendered unexpectedly lively by the speeches of Mr. Bradley and other Republican leaders. Representative Slack, of Owensboro, in placing Bradley's name in nomination, reviewed the political situation as it has progressed since the Legislature convened, and declared his belief that the Democratic majority has determined to rob the present occupants of the State offices, so they were fairly and honestly elected by the people in November, in spite of the most gigantic frauds that even disgraced the State and put in their places the gang of conspirators who dominate the party in the Legislature. He closed by declaring that the people would not submit to the unseating of Gov. Taylor. Ex-Gov. Bradley in his speech accepting the nomination, said that the State had never in its history had before it such a state of affairs as now exists. He said the very air was full of conspiracies. All of these had failed up to date, however, he said, and "as sure as God reigns the men who have been placed in these offices by sovereign people will stay there";

These sentiments were also expressed by other speakers and applauded.

If your eyes become tired, smart, burn or feel heavy, Sutherland's Eagle Eye Salve will make them light and bright and give you a clear, keen sight. Thousands of people use it who never have had sore eyes—it is an Eye Tonic.

### Two Good Ones on the Irish.

A certain stingy son of Erin, on one occasion, upon seeing another Irishman just going to drink a glass of whisky, exclaimed: "Hould on, Pat, just let an ould friend have a drop, the laiste drop in the wurruld." His friend passed the glass, and the stingy one quietly emptied it. Pat was naturally annoyed and said, "Bedad, I thought you only wanted a drop?" We may guess his feelings upon receiving the reply: "The drop I wanted was at the bottom!"

•

Here is a Green Bag story which Baron Dowse, the celebrated Irish Judge, once told in that exaggerated brogue which he loved to employ:

"I was down in Cork last month holding assizes. On the first day, when the jury came in the officer of the court said: 'Gentlemen av the jury, ye'll take your accustomed places, if ye plaze.' And may I never laugh," said the Baron, "if they didn't all walk into the dock."

A GREEN EYED MONSTER.

For such was a man mistaken because he was because he was bilious. A Red Circle Pill every night for a month will relieve jaundice and him unjust charge.

### LITSEY.

From Our Regular Correspondent.

We heartily agree with the Editor in his opinion of the Lawton fund. While Mrs. Lawton has the sympathy of all in her bereavement, a gift of money when not needed will not lessen her grief. The government liberally rewards its heroes, which is after all a gift from the people.

A number of families have changed their places of residence in this vicinity since the New Year. Walter Brawley moved near Willisburg, William Fitzgerald to the farm formerly occupied by Mr. Jones; while Jones now lives at the parsonage property recently purchased by him, and Richard Baker is at the homestead of H. N. Ware.

G. A. Dohoney and son were in Danville a few days of this week.

Judging from the unanimity of the legislature in its support of J. C. S. Blackburn for Senator, and Blackburn's fight being Goebel's fight, it seems that the democratic ship will eventually anchor safe in harbor. It has been said that "every man has his price," but it seems that prices are becoming dear, when forty-five hundred dollars fails to induce a man on a salary of one hundred and fifty dollars per annum, to stay out of a caucus. It is to be hoped that the time of "selling out" has passed. It was this kind of tactics that aided in defeating Irwin for R. R. Commissioners and at present it may materially effect the cause of Mr Taylor, in the retention of his seat, as Governor of Kentucky.

DO YOU DRINK WHISKEY?

If you do, drink the best and take a Red Circle Pill every night in the week. This is physiology for plain people.

### An Old Estate.

Mr. P. C. Cleaver, of Springfield, formerly of our city, qualified Monday last as administrator de bonis non of James Kirk who died January 21, 1857. He left a widow, Mrs. Mahala Kirk Welsh, who died at Chicago Heights, last October, a notice of whose death appeared in last week's Enterprise. Of Jas. Kirk, Dr. W. W. Cleaver furnishes us the following bit of history which will be of considerable local interest: "James Kirk was 61 years old when he married Miss Mahala Chamberlain, aged 22 years. He died at 90, less two months. The widow owned a dower of 88 acres of land near town. James Kirk was the grandfather of Paul I. McElroy, Jas. H. Kirk, deceased, Dr. W. W. Cleaver, P. C. Cleaver and Mrs. Lettie Crawford; the great grandfather of J. Henry Kirk, Proctor McElroy, Lee D. Ray and others of this county. He has no descendants living nearer than grand children who live in Oregon, Utah, Missouri Texas, Illinois and Kentucky. When he died he was possessed of 400 acres of land two miles from Lebanon and a large number of slaves, all of whom are now dead except a few of a younger generation born since his death."—Lebanon Enterprise.

MAYORS CROWDED.

The Havana cabmen have been called bandits, but they are no worse than their fellows elsewhere. They have a wholesome fear of the municipal regulations, and do not seek to overcharge unless they are certain of not being caught. The fare, which is 20 cents in Spanish silver for one or two passengers within a radius of two miles, does not give them much margin. Some of them have learned the trick of extra politeness and of making the passenger believe that it rests entirely with its generosity. They object to a long trip, and are often surly when they are where they are to go. Sometimes they halt and free themselves of a long string of dactilian expletives. The American visitor thinks the cabman is swearing at the horse. If he happens to understand Spanish, and after the fourth or fifth epithet he hands the cabman, instead of being upset, thinks it a good joke. Of an afternoon nothing is more pathetic than the parks so much as to call him for a trip to the business section of the city. He is waiting for a fare, and drive, which may mean $2 instead of 20 cents. If he refuses to take a passenger, all that is necessary is to call a policeman. Then he moves rapidly. The Havana cabmen own the streets of the city. They have a wonderful faculty for just missing the chance of running over pedestrians. The sidewalks are so narrow that the pedestrians are forced to walk in the streets, yet the cabmen invariably treat them as intruders. They also have an unusual faculty for framing angles and running into one another. Though they exchange compliments and hard epithets, they rarely get to blows. After abusing each other they bark out, and each goes his way. A Havana cabman is at his best when he gets into a blind alley of a mule cart blockade. Though it is his own fault, he abuses the cart drivers in picturesque and vivid language, compels them to yield their right of way and drives off happy, with a parting shot thrown over his left shoulder.

All persons owing taxes to me as sheriff are hereby notified that unless some settlement is made by next county court day that I will proceed to advertise the property for sale to satisfy all claims.
H. B. POWELL,
Sheriff W. C.

Mr J. B. Grundy has accepted a position with the clothing firm of Leuy Bros., Third and Market streets. Louisville, where he will be glad to see all of his old Washington county friends, John is a popular young man and deserves success in his new undertaking.

Palmer Reed, a colored man employed on the farm of Mr. Robert Parrott about two miles from town, was found dead in a field on last Friday morning. The man had taken a team and gone out on the farm to haul in a load of wood. After he had been gone about two hours Mr. Parrott had occasion to pass the place when he discovered Reed lying on the ground near the wagon and team dead. He had partially loaded the wagon and it is supposed that he dropped over and died from heart disease. The deceased was about forty-five years old and leaves a family.

**A. M. E. Zion Conference.**

Last Sabbath and Saturday were Quarterly Conference and meeting days at the A. M. E. Zion church. Our love feast on Friday night was all ablaze with gratitudes and the Holy Spirit. Miss L. Platt, Supt., conducted the Sunday School with credit. Father Johnson, our venerable P E., delivered a very deep and earnest sermon from the subject, "Christmas Activity." Rev Stones, Pastor of Zion church at Lebanon, at 3 p. m. preached a powerful sermon from the "Immediate Cry of the Rocks." Father Johnson, after making a few remarks, administered the Lord's Supper. The congregation was unusually large The collection was $11.35.

Both Prof. O. G. Duff and Miss E. E. Simms have opened winter schools, and as they are excellent teachers, parents should give them good attendance.

There will be a mum and ragged social at A. M. E. Z. church Saturday night. All invited.
PASTOR.

**Murder Now.**

Henry Shewmaker, the young man who was struck on the head with a scale weight by Henry Shewmaker, a cousin, at Marksville about two weeks ago, died on Sunday night last from the effects of the blow. The young man's skull was fractured and although for a time he appeared to have a chance to recover, his condition became worse and death resulted. His assailant is supposed to have left the country, as he has not been seen in the neighborhood since last Friday The Henry Shewmaker who was killed was about 20 years of age and a son of Butler Shewmaker who was killed about twelve years ago by Lee Riley with whom he had a difficulty. This killing also occurred at Mackville. The young man who now stands charged with murder is about 21 years old and a son of Uriah Shewmaker. There are several conflicting reports regarding the killing, one being that it was without provocation, and then again it is said that the deceased was advancing on the other with a knife when he was struck.

IT WON'T CURE YOUR HEART DISEASE

Neither will anything else. But the Red Circle Pill will cure thousands of people who think they have Heart Disease. True enough a diseased heart palpitates but Palpitation does not necessarily mean a diseased heart. It is in the latter event that you are advised to take the Red Circle 1 it Nature will do the rest.

**Thousands Have Kidney Trouble and Don't Know it.**

How To Find Out.

Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys. If it stains your linen it is evidence of kidney trouble: too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

What to Do.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in 50c. and $1. sizes.

You may have a sample bottle of this wonderful discovery and a book that tells more about it, both sent absolutely free by mail, address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper.

## A Ghost Story

A special correspondence from Bardstown says: Strange stories are being circulated concerning a monster oak tree that grows in the rear of an old tollgate near the Louisville turnpike and adjacent to the fair grounds, a short distance from this place. The vicinity of this tree is said to be haunted, and many of those people who have occasion to travel the pike after night aver that supernatural sights and singular noises are to be seen and heard in that locality.

Three or four years ago Charles Merriwether, an aeronaut attached to Cooper circus made a balloon ascension from the fair grounds. For some cause his parachute failed to work properly after he had made his leap for a descent, and he was precipitated into the top of the giant oak mentioned above. He crashed through the branches of the tree to the earth, a distance of thirty feet or more, with the result that his death followed in terrible agony a few minutes later.

It is the spirit of this man that is said to haunt the oak tree. Reputable citizens residing along the pike declare that uncanny manifestations occur almost nightly in the vicinity of the tree. The most startling story however, is told by a traveling salesman for a Louisville firm, who was returning here late at night recently from Cox's Creek, where he had been to sell a bill of goods.

When near the fair grounds, he said, he saw a shadowy balloon hovering in the sky to the rear of the tollgate. The night was intensely dark and the course of the balloon was marked by a vivid red light. He stopped his horse and watched the maneuvers of the mysterious airship. It suddenly gave a lurch as if released from a heavy weight. Before the drummer who was thoroughly frightened, could whip his horse into action, he avowed he distinctly heard the crashing of a heavy body through the branches of a tree. This was followed by a number of unnatural groans, and then all became quiet. The drummer lost no time in reaching town, where he told his story at a hotel. What gives weight to the salesman's story is that he is an utter stranger in this section, and had never heard of the tragic death of the aeronaut.

Other stories similar to this are told by people of unquestioned veracity who have had occasion to be in the vicinity of the haunted tree after night. It is said the supernatural manifestations began to occur shortly after Merriwether's fatal leap, and there is but little doubt in the minds of those who are acquainted with the circumstances that the spirit of the aeronaut revisits the scene of his awful death.

## A Big Industry.

In a recent letter descriptive of a Cuban sugar plantation, Mr. Aubrey Williams says no one can form a just conception of its immensity until they have seen one. They cover many acres, and there are generally small railroads running in every direction over the plantation to bring the cane in from the fields to the mill, and to take the refined sugar to the large railroad wheeze it is shipped to all parts of the world. During the process of being made into sugar, the cane juice, in about six hours, travels on an average of about six miles through pipes and sluices before it is ready for shipping. One plantation, last year, turned out 250 000 sacks of sugar of three hundred pounds each, and that was considered a little over half a crop. The uses the cane itself is put to are many. It will lead to set the stock required, both to saw the crop and run the mill, and after the juice is taken from it, the crushed stalk will furnish fuel to run the plantation trains. The country is ideal for stock raising. Sometimes the grass is high enough to completely conceal a man on horseback twenty feet distant. The undergrowth is luxuriant, and there is no expense attached to the wintering of cattle, as in the states.—Harrodsburg Democrat.

## Unpleasant Bedfellows.

The adventures of naturalists in odd corner of the globe rival the experiences of explorers in variety and interest. Dr. Maximillian Schümann, a Belgian naturalist, journeyed through Mexico, not many years ago, and here is one of the reminiscences which he brought back with him:

I had gone a day's journey on horseback from the city of Zacatecas toward the southeast to examine some ancient Toltec ruins.

I arrived at my destination late at night and lighted a fire within the ruins to make my supper. After eating I spread my blanket and lay down. When I awoke in the morning, my first impulse was to stretch out my hand. I threw it out from under the blanket, and as I did so it almost touched a big, poisonous rattle snake, quietly coiled by my side. I escaped by the merest chance.

Looking toward my feet, what was my astonishment to see six other rattlesnakes coiled at intervals over my body.

The reptiles did not belong to the variety commonly known in California, but were of a peculiarly poisonous species found in hot regions. When I lighted my fire in the evening, it was too dark to see the snakes, which, I presume had crept along the walls.

The altitude of the ruins is nearly eight thousand feet, and so the nights are cold. My fire had attracted the reptiles. When they approached it they found my bed, and discerning the warm blankets, crawled up on them and went to sleep.

I extricated myself from the blanket with infinite care. Once on my feet I was no longer afraid of the reptiles, but as I already had specimens of them in my collection, I killed them all and nailed them to the adobe wall with my card on each.

Croup, the great enemy of childhood, succumbs at once to the soothing influence of Dr. Bell's Pine-Tar-Honey. Bronchial affections lose their danger when this great remedy is at hand. No home should be without it.

Protracted headache often results from overworking or straining the eyes Sutherland's Eagle Eye Salve rests the eyes by taking out all the inflammation and thus strengthens the sight and removes the headache by acting as a tonic to the optic nerves.

Chapped hands, cracked lips and roughness of the skin cured quickly by Banner Salve, most healing ointment in the world. Haydon & Robertson.

### How Fishes Breathe.

Fishes breathe, as is well known, says Ulrik Dahlgren in the Princeton Bulletin, by passing a stream of water through the oral cavity, in at the mouth and out by two lateral openings, the gill clefts. This is accomplished by a rhythmic motion, plainly visible, the nature of which, however, has never been accurately described, and the text-books of ichthyology calling it "swallowing," "an act similar to swallowing," &c.

The writer's discovery of two membranous valves four inside the mouth has made possible the following conception of the breathing of teleost fishes.

The construction and operation of the fish's apparatus is that of a perfect two-valve pump In such a pump there must be a chamber which possesses two openings, each guarded by a valve. The forces necessary to operate such a structure are three (or six) in number: First, a force so applied as to alternately contract and expand the chamber; second, a force to alternately shut and open the posterior (exit) valve; third, a force to alternately shut and open the anterior valve. These valves must be operated in proper sequence to the expansion and contraction of the chamber. The valves may be operated either by separate mechanism or by the mere action of a current passing through the chamber.

It is to this latter point that attention is called in the case of the fish. Here we find a chamber (the oral cavity) and two openings, the mouth (anterior opening) and the double gill opening (posterior opening). Muscular force is applied to expand and contract the oral cavity. But no such direct application of muscular forces is needed to open and close the anterior and posterior openings. This is done automatically by the branchiostegal valves in the gill opening (or posterior opening), and by the maxillary and mandibular breathing valves in the mouth opening (or anterior opening).

The fish is thus not required to use separate muscles to close and open the passages, but the loss of energy due to friction and retarded momentum of the valves must be added to that required to expand and contract the oral cavity. It is simply a mechanical economy such as is found in the heart.

A White Tiger.

A white tiger is not often heard of and in these days of suspicion the existence of such would be denied to many, on account of the skepticism it would at once be received with considerable caution. That there have been several fine, full-blooded specimens of the spotted albinotum in tigers, however, and this of no doubt three is Major H. Robinson's specimen (11 feet 9½ inches long, shot at Poona, and the skin of one also exhibited. If we remember rightly, some nine or ten years ago in London to go no further back for records. Now we have another instance in the tiger recently shot in the Dibrugarh District, Assam, by Mr. Greenlaw of Naharkutia.

### Helpful Suggestions.

Have a rack for washing dishes. It saves the hands and can be used to clean jars and large-mouthed bottles that cannot be washed with the hands and dishcloth.

Study the arrangement of the kitchen and have everything in the most convenient place. A single step saved each day means 365 in a year. To save a dozen or a hundred a day is restful to think of.

In the course of a lecture to an unprovisioned audience Scotch medicine Dr Rougemont, talking of "the dear, dear days," explained that he had a good memory and a better imagination. An unbeliever in the unreserved seats persisted in asking unanswerable questions, which ultimately brought out an interesting reflection.

"I have always found," said the wanderer, "that it was enough for one ass to bray at a time."

## Have You Heard Of It?

You may have heard about SCOTT'S EMULSION and have a vague notion that it is cod-liver oil with its bad taste and smell and all its other repulsive features. It is cod-liver oil, the purest and the best in the world, but made so palatable that almost everybody can take it. Nearly all children like it and ask for more.

**SCOTT'S EMULSION**

looks like cream; it nourishes the wasted body of the baby, child or adult better than cream or any other food in existence. It bears about the same relation to other emulsions that cream does to milk. If you have had any experience with other so-called "just as good" preparations, you will find that this is a fact.

The hypophosphites that are combined with the cod-liver oil give additional value to it because they tone up the nervous system and impart strength to the whole body.

50c. and $1.00, all druggists.

# Boils and Pimples Give Warning.

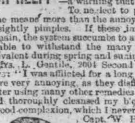
AN UNFAILING SIGN THAT NATURE IS APPEALING FOR HELP.

When Nature is overtaxed, she has her own way of giving notice that assistance is needed. She does not ask for help until it is impossible to get along without it. Boils and pimples are an indication that the system is accumulating impurities which must be gotten rid of; they are an urgent appeal for assistance—a warning that cannot safely be ignored.

To neglect to purify the blood at this time means more than the annoyance of painful boils and unsightly pimples. If these impurities are allowed to remain, the system succumbs to any ordinary illness, and is unable to withstand the many ailments which are so prevalent during spring and summer.

Mrs. L. Gentle, 3004 Second Avenue, Seattle, Wash., says: "I was afflicted for a long time with pimples, which were very annoying, as they disfigured my face fearfully. After using many other remedies in vain, S. S. S. promptly and thoroughly cleansed my blood, and now I rejoice in a good complexion, which I never had before."

Capt. W. H. Dunlap, of the A. G. S. R. R., Chattanooga, Tenn., writes: "Several boils and carbuncles broke out upon me, causing great pain and annoyance. My blood seemed to be in a riotous condition, and nothing I took seemed to do any good. Six bottles of S. S. S. cured me completely and my blood has been perfectly pure ever since."



## S. S. S. FOR THE BLOOD

is the best blood remedy, because it is purely vegetable and is the only one that is absolutely free from potash and mercury. It promptly purifies the blood and thoroughly cleanses the system, builds up the general health and strength. It cures Scrofula, Eczema, Cancer, Rheumatism, Tetter, Boils, Sores, etc., by going direct to the cause of the trouble and forcing out all impure blood.

SHE WAS BLIND.

A blindness comes to me now and then. I have it now. It is queer—I can see your eyes but not your nose. I can't read because some of the letters are blurred; dark spots cover them; it is very uncomfortable.

I know all about it; it's DYSPEPSIA. Take one of these; it will cure you in ten minutes.

What is it?

A Ripans Tabule.

WRITTEN—A case of bad health that RIPANS will not benefit. Two grains of RIPANS (one tabule) relieve. One grain cures. Ten grains will positively cure the worst case of dyspepsia, sick headache, biliousness, constipation or kidney trouble. Ripans Tabules are sold by druggists, or by mail if the price (60 cents a dozen) is sent to the Ripans Chemical Co., New York.
